Beirut - Lebanon

ABOUT ME

As a professional software engineer with 2 years of experience in web development and mobile app development, I have enhanced my skills in C#, ASP.NET MVC and Blazor. My passion for programming, coupled with my eagerness to take on new challenges, has pushed me to constantly expand my skill set. I am extremely passionate and committed to providing high quality work. My ability to learn quickly and efficiently contributes to my ability to adapt in the face of new technologies and frameworks. As a team player, I strive to contribute to collaborative environments and believe that shared knowledge leads to growth and overall success.
